**INTEGRATED DESIGN & MANUFACTURING SOLUTIONS
FOR FOOD & INDUSTRIAL PROCESSES**

American Conveyor is a single source consultant, designer, integrator and manufacturer with a broad array of experience in multiple industries. As a neutral party, we offer an unbiased opinion of third party manufactured systems. As a custom designer and manufacturer we build to suit your specific project criteria.

AMERICAN CONVEYOR OFFERS:

- Design & Engineering Services
- Integration Services
- Control Design & Manufacture
- Project Management
- Plant Layout
- Installation & Start-up
- Plant Relocation & Refurbishment
- Maintenance & Repair
- Parts Ordering
- Vendor Selection Assistance

American Conveyor's customized systems are project specific and are designed, manufactured and tested through a collaborative effort with clients. Our experience insures we understand the requirements of both food and industrial manufacturers utilizing a multitude of application specific equipment.

| Healthcare & Cosmetics | Frozen Foods |
| Beverages | |

“American Conveyor is an extension of our engineering team. While their manufactured systems are first rate, the difference is their ability to find cost-effective solution for every production line problem.”

- Ian Cox
Engineering and Operations Coordinator – Turkey Hill Dairy

“American Conveyor consistently brings their experience to bear on tough problems. Food manufacturing is as much an art form as a science and these guys excel at both.”

- Nick Scangas
General Manager - Cedar's Mediterranean Foods
